

CURRICULUM VITAE

ANDRZEJ ŁADOMIRSKI

Front-end Developer

SKILLS & PURPOSE

By the years in the culture and pedagogy area I have repeatedly had the need to create new applications or interactive websites supporting the learning process. Ideas came up every moment, I just lacked the skills to accomplish them. Now my knowledge allows me to make many of them. I would like to develop more advanced and expanded educational sites and applications in the future.

Skills / technologies:

HTML – good knowledge and ability to use language in creation of pages. Familiarity with new solutions introduced in HTML5 specifications and ability to use them in practice.

BEM – in my latest projects I am trying to use BEM compliant naming in order to minimize code and get a clear document structure.

CSS – the ability to apply styles to achieve the design intent of the visual design. Effective use of pseudoclasses and selectors :before, :after.

Knowledge of CSS3 syntax. I use the SASS preprocessor to work on style sheets.

JavaScript – knowledge of basic issues, syntax, and language rules. Ability to use practical scripts. Knowledge of syntax and new features introduced in ES6. At work I use JavaScript to create active elements of the page, and I also try to write from scratch their own applications and tools. Everyday I get to know the new functionalities of the language and I am very happy to learn how to use them. I also have issues with asynchronous and technology such as AJAX, or use of APIs provided on the web.

When working on pages and applications I use JS frameworks and libraries. These are primarily: jQuery – practical knowledge and ability to use in projects, AngularJS – basic knowledge of syntax and rules of application development, Twitter Bootstrap – good knowledge of framework, ability to use and modify elements, ability to create own, Google Fonts – the ability to use the resources offered by the source.

To protect the effects of my work, I use the Git version control system.

I use Gulp automation and tools such as Browser Sync, Babel.js, Autoprefixer to streamline my coding work.

I have good knowledge of Adobe Photoshop and I can practically use the capabilities of the program (working on layers, using filters, masks, slices)

I use fluent English in speaking and writing. For nearly twenty years of my pedagogical work, I have made many classes in this language. For my weakness I find vocabulary shortages, but I try to keep them up to date.

WORK & EXPERIENCE

2016 – now – Wrocław Opera – musician

2014 – now – Centrum Edukacji Nauczycieli Szkół Artystycznych
coach, trainings leader

2002 – 2016 – K. Lipiński Music Academy in Wrocław
